

SANDIS Personalization

The ability to select from multiple themes and banners is now available in SANDIS. New avatars have also been released to further personalize your welcome screen.

Theme Selection

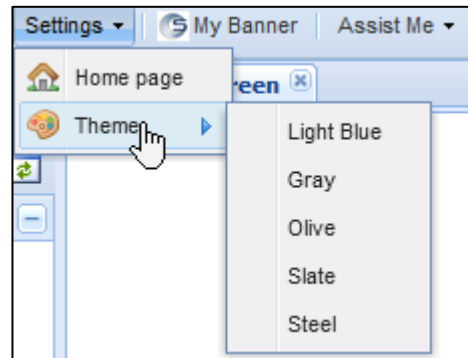

Five themes can be selected from the menu bar. It is not necessary to refresh or exit SANDIS to see the change of theme.

The areas highlighted in the image to the right will be changed by each theme.

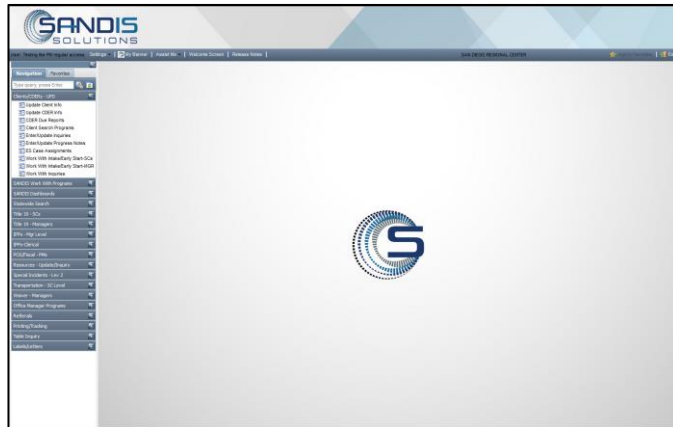

To change the theme, click on Settings and hover over the option for **Themes**. Click on the desired theme. The following themes are available:

- Light Blue
- Gray
- Olive
- Slate
- Steel

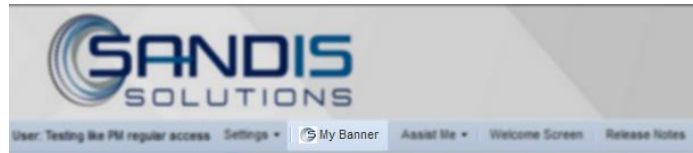

Changes take effect immediately and your preferences are saved until the theme is changed again.

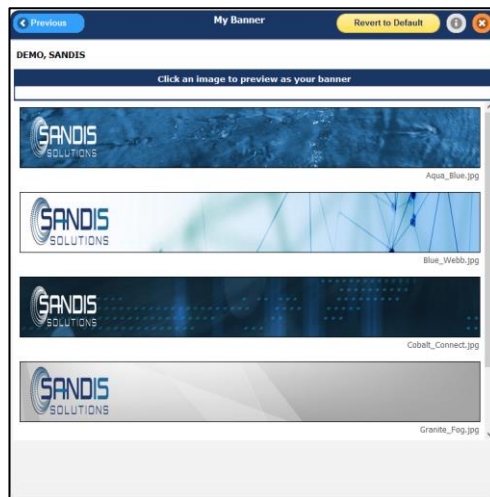

Banner Selection

Similar to changing a theme, the Banner can be changed by clicking on the **My Banner** icon.

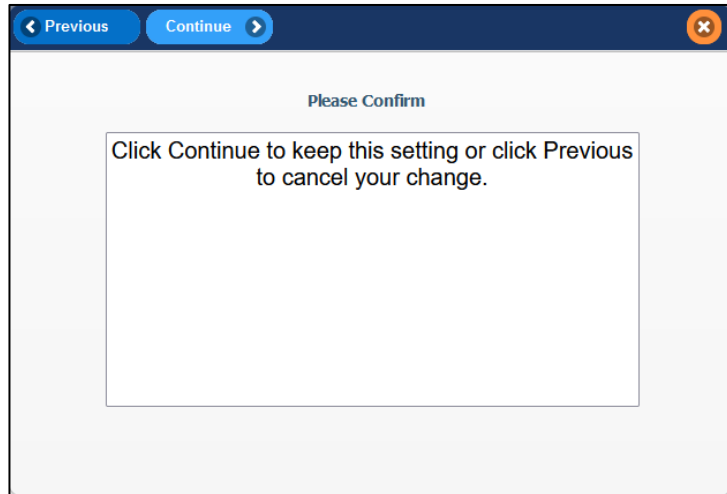

A new window will appear displaying the different options that a user can choose from. To select a new banner, click on the image.

The banner will immediately change and a confirmation window will appear prompting the user to accept the change.

Click  to approve your change or  to select a different banner.

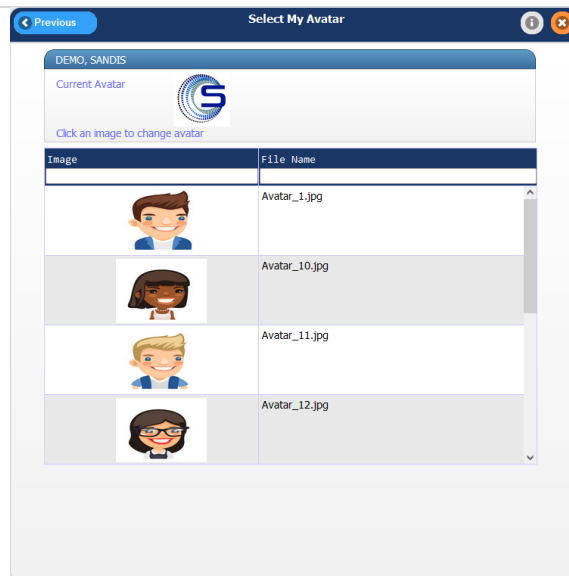

Avatars

Select a variety of fun avatars to personalize your profile. From the welcome screen, click on the picture located on the top left corner of the screen above your caseload.

To change avatar, click on the desired picture.

The Current Avatar section displays the selected avatar chosen by the user. Changing avatars will also display text at the bottom of the selection grid, showing the user that the avatar has been updated.
